 CLG #81-1008/P

May 5, 1981

The Honorable William J. Casey  
 Director  
 Central Intelligence Agency  
 Washington, D.C. 20505

Dear Mr. Casey:

I request that a briefing on the nuclear activities of India, Pakistan, South Korea, South Africa, Libya, and Iraq be held. Some brief account of the status of nuclear activities of Argentina and Brazil would be useful.

Since some of the members are new, please include basic definitions, a description of material required for the manufacture of nuclear weapons, and whatever other background material that you deem appropriate. A brief account of the historical background of the current status of their programs would be helpful.

If possible, please limit the formal part of the presentation to 45 minutes, as there will no doubt be many questions. The classification, I understand, will be Top Secret codeword.

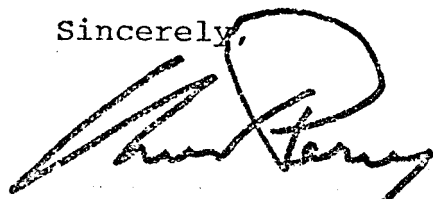

The briefing begins at 3 p.m., Room S-116 in the Capitol on May 12th.

Members of the Government Affairs Committee have also been invited.

The staff of the Foreign Relations Committee has been in contact with [redacted] of your Legislative Affairs section regarding this briefing. STAT

Thank you for your cooperation.

Sincerely,

Charles H. Percy  
 Chairman
